**Addendum 2****March 1, 2012****PON-11-604 Advanced Vehicle Technology Manufacturing**

The purpose of this addendum is to:

1. Replace Attachment F (Exhibit B) the budget documents to correct the form. Tabs B-3a Sub#1 Non-Labor Rates through B-3o Sub#15 Non-Labor Rates now include the name of the subcontractor. The [corrected document](#) is attached.
2. Correct section 14. Grounds for Rejection to include confidential information

2. Section 14. Grounds for Rejection: This adds the underlined bullet.**Applications will be rejected and not considered for funding if:**

- The application is not received by the Energy Commission's Grants and Loans Office by the specified due date and time.
- The application contains any information identified as confidential.
- The Cover Page is not signed by the applicant's authorized representative.
- The required minimum 50 percent non-state match funding is not included in the budget.
- The source of match funding is not disclosed or the application does not provide verification and documentation for the match funding, including letters of commitment from any project partners.
- Project partners are not identified or documentation confirming their participation is not provided (if applicable).
- The project is not an Eligible Project pursuant to Section 7 of this solicitation.
- The application contains confidential information.

Applications may be rejected and not considered for funding if:

- Any application requirement listed in Section 15 is missing or incomplete.
- Budget or Scope of Work forms are missing or incomplete.
